

Xavier Perez

Senior Full-Stack Product Engineer

Quito, Ecuador | thexap.com | upwork.com/freelancers/xavierperez

Software engineer with 15+ years of experience. Owns full-stack delivery across product decisions, architecture, interfaces, APIs, and cloud infrastructure. Uses Codex and Claude Code to coordinate engineering work, with hands-on review of AI-generated code, trade-offs, and test evidence.

EXPERIENCE

Independent Senior Full-Stack Product Engineer

Upwork client engagements | 2016-Present

15,309 hours on Upwork | **100% Job Success** | **Top Rated Plus** | 29 total jobs

SELECTED ENGINEERING WORK

Full-stack development and AWS infrastructure

Upwork client engagement | Delivered

- Delivered frontend and backend work using React, Next.js, and MongoDB, with AWS CDK, Lambda, EventBridge, and API Gateway.
- Used Codex and Claude Code orchestration as part of the delivery workflow.

Full-stack architecture and API integrations

Private practice operations platform | Client product in use

- Led discovery, UX, architecture, and full-stack delivery. Replaced a growing spreadsheet workflow with a dedicated application now used as the owner's primary system.
- Built the React/TypeScript UI, Node.js/Hono API, PostgreSQL data layer, and Google Calendar integration. Used Codex and Claude Code for implementation and testing, with direct review.

Full-stack development and system reliability

Caregiver coordination and Android display | Owned product in development

- Led research, UX, architecture, and full-stack delivery across a React/TypeScript caregiver interface, Go/PostgreSQL service, and Android display application.
- Directed Codex and Claude Code workflows and reviewed code and tests. Verified offline, stale-data, recovery, and restart behavior using synthetic data and an Android emulator.

TECHNICAL SKILLS

Application systems: JavaScript, TypeScript, React, Next.js, Node.js, Hono, Go, PostgreSQL, MongoDB

Cloud and integrations: AWS CDK, Lambda, EventBridge, API Gateway, REST, GraphQL, OAuth, webhooks

Engineering workflow: Codex, Claude Code, technical review, unit, integration, and end-to-end testing

EDUCATION

Master's degree in Marketing | Universidad de las Fuerzas Armadas | 2014-2016

Bachelor of Engineering in Systems and Information | Escuela Politécnica del Ejército | 2002-2007

CERTIFICATION AND LANGUAGES

AWS Certified AI Practitioner | April 2026-April 2029 | Credential

English: Fluent, verified on Upwork | Spanish: Native
